

## **OUTCOMES FROM INUIT TAPIRIIT KANATAMI BOARD OF DIRECTORS' MEETING**

November 29, 2018, Ottawa – The ITK Board of Directors met today and approved the Inuit Tuberculosis Elimination Framework as part of their quarterly meeting. The Framework will be officially released on December 10<sup>th</sup> pending final translations and formatting, and will provide national guidance on priority actions needed to eliminate TB among Inuit in Inuit Nunangat.

In addition to the approval of the Inuit TB Elimination Framework, the Board discussed the upcoming joint announcement on Indigenous child and family services and associated next steps with the Federal government and National Indigenous Organizations.

In preparation for the Inuit Crown Partnership Committee meeting later in the afternoon, the ITK Board reviewed Inuit priorities on post-secondary education support, Inuit-specific Early Learning and Child Care funding allocations, housing, food security and the Arctic Policy Framework.

The Board of Directors re-appointed NTI President Aluki Kotierk to the role of Secretary-Treasurer for the next year per the ITK by-laws.

ITK's Board of Directors is made up of the four elected leaders of the four Inuit land claim regions as voting members. The four Inuit land claim organizations are: the Inuvialuit Regional Corporation, Nunavut Tunngavik Incorporated, Makivik Corporation, and the Nunatsiavut Government. The President of the Inuit Circumpolar Council Canada acts as Vice President of the ITK Board and is a non-voting member. The Presidents of Pauktuutit Inuit Women of Canada the National Inuit Youth Council and are also non-voting members.
